ABOUT ME

B.Tech Computer Science student at NIST University with an interest in software development and open-source collaboration. Contributed to open-source programs including GSSoC and SSOC, participated in three national-level hackathons, and built web applications through academic and personal MERN stack projects. Currently learning Python and Data Science while expanding technical skills and gaining practical development experience.

EDUCATION

NIST UNIVERSITY (2023-2027)
(National institute of science and technology), Berhampur, Odisha B.Tech in Computer Science and Engineering

UCP ENGINEERING SCHOOL (2021-2023)
(UMA CHARAN PATNAIK ENGINEERING SCHOOL), Berhampur, Odisha Diploma in Computer Science and Engineering

DAV PUBLIC SCHOOL (2009-2021)
(Dayanand Anglo-Vedic Public School), Berhampur, Odisha CBSE - Class X

SKILLS

- | | | |
|--|---------------------------------|-----------------------------|
| • Python, JavaScript | • Node.js, express js rest APIs | • Git, GitHub, VS Code, |
| • React.js, HTML5, CSS3,
Tailwind CSS, Vite | • MongoDB | • Data
Science(learning) |

PROJECTS

Startup Idea Evaluator (2025)

Developed an AI-powered web application to analyze startup ideas and generate business insights, including market potential and success prediction. Tech: React.js, Vite, JavaScript, Machine Learning.

Virtual E-Commerce Try-On (Team Project | 2025)

Collaborated in a team to develop an AI-powered virtual try-on platform, contributing to UI development, feature integration, testing, and debugging. Tech: React.js, HTML, CSS, JavaScript.

ZestVerse (SIH Team Project) (2025)

Collaborated in a Smart India Hackathon team to develop a gamified learning platform prototype with interactive educational mini-games and responsive UI. Tech: React.js, Tailwind CSS, JavaScript.

EXPERIENCE

- Participated in Hackathons
- Web Development Intern | Web_Bocket Software Pvt. Ltd. (May 2026)
 - Developed MERN stack web applications, integrated REST APIs, and built responsive user interfaces.
- Open Source Contributor | GSSoC & SSOC 2026 Contributed to open-source repositories through bug fixes, feature development, documentation, and GitHub collaboration.
- Research article work (Password Cracking Techniques and Defense Mechanisms in Cybersecurity)
 - Research article on penetration testing frameworks and ethical boundaries
 - Guided by Faculty, Dept. of CSE
 - Under Review / College-Level Publication, 2026

ACHIEVEMENT

- Google Student Ambassador (System Track)
 - Selected to represent Google-led technical initiatives on campus
